

Biography

Analisa Bevan
Program Manager, CA H2 Net
Manager, ZEV Implementation Section

Analisa Bevan is Program Manager of the California Hydrogen Highway Network and Manager of the Zero Emission Vehicle Implementation Section at the California Air Resources Board. For the California Hydrogen Highway Network she will oversee installation of pilot hydrogen fueling stations along the Network, placement of hydrogen powered vehicles and shuttle buses in State service and other activities that enhance evolution towards a hydrogen economy in California. She has been with the Board since 1992 working on emission control programs including implementation and modification of the Board's zero-emission vehicle requirements, development of emission standards for personal watercraft and outboard engines, and implementation of California's cleaner-burning gasoline program. Her focus in the ZEV Implementation section prior to becoming manager was the exploration of the role of hybrid electric vehicles in the ZEV program and infrastructure development. Ms. Bevan holds a bachelor's degree in Mechanical Engineering from the University of California, San Diego.
